

NOTICE TO REGISTERED VOTERS OF NODAWAY COUNTY

FROM NODAWAY COUNTY CLERK
MELINDA PATTON

All active registered voters in Nodaway County can expect to receive a new voter identification card in the mail within the next few weeks. As required by Missouri Statute the Voter Registration Office will conduct a canvass of all registered voters within the county prior to the 2024 August Primary Election.

Upon receipt of the new voter identification card, please verify your name and your address. If both your name and address are correct, please keep the card for verification purposes. If the information on the card is no longer valid, please turn the card over, fill out the form on the back and return to our office.

If you have received a card within the last six (6) months, you will not get a card with this canvass. If you have moved or had a name change since receiving that card, please contact our office to update your information. If you do not receive a new voter identification card within the next few weeks and you feel that you are registered to vote, please contact the voter registration office at 660-582-2251.
